

Inc. YES begins event row

Inc. YES organised on the 20th of April, 2010 in Bielefeld in cooperation with the initiative for employment OWL and the federal agency for job a parents' evening for êzîdîs parents about the binary professional training system in Germany. This was first from three subject evenings within the scope of an event row take place. Under the management of Registered society YES these events are aimed especially to the ezîdîs from Bielefeld.

To reach the best possible integration the êzîdîs youngster at the occupational market and therefore also better perspectives for the life, such evenings of information are according to appraisal of Inc.(Registered society) YES indispensably and sees this as an important part of its job.

The joy at it was so great accordingly when numerous participants, in spite of the unfavorable appointment, on the event had appeared. By the numerous number of participants one had received the confirmation that êzîdîs inhabitants of Bielefeld showed great interest to the future creation of their children especially at the occupational market.

Inc. (Registered society) YES would like to sensitise êzîdîs Community even more for this subject. And this rightly. Since after representation of Mr. Lipppa, initiative for employment OWL, one found out how important the education is. According to his information it would not keep to it any more long that youngsters can work without Professional training even as an assistant. According to a statistics the auxiliary jobs till 2025 will be approx. 25 percent less because unqualified jobs will be transferred abroad and there the jobs will be done for much less wage. Hence, Mr. Lipppa called rightly to the parents and to finish particularly to the youngster, a professional training. Above all Mr. Lipppa exerts himself for the Professional training of youngsters with migration background to offer to them the same qualification like the youngster without migration background. Also these are, finally, a component of the future of Germany. Afterwards Mr. Salar and Mr. Drew, professional training adviser of the agency for job Bielefeld introduced, the binary professional training. After a detailed presentation, one went over in a discussion group.

The cooperation partners thank all participants and hope for their participation also in the next events.
